INDUSTRY ASSOCIATION LIMITED

Why Join SAPIA? - Benefits of Membership

INVOLVEMENT –

Membership of a trade body alongside others in the industry shows support for our objectives of raising industry standards and engaging in sound and ethical business practices.

IDENTIFICATION –

The SAPIA logo is a mark of distinction, a guarantee of quality, as members must meet admission criteria and abide by the standards embodied in the Association's Code of Ethics and the Constitution. Members are permitted to display the SAPIA logo on their own websites and advertising material, demonstrating to potential customers that they have met the Association's standards of workmanship and have the requisite expertise and experience to tender for the project.

PROMOTION –

SAPIA provides valuable exposure to potential corporate and private customers through its website and advertising, as well as through liaison with government departments and regulatory authorities. Customer enquiries to the freecall phone numbers are assisted and directed to contact relevant members.

WEBSITE PROFILE –

Members have an individual profile listed on the SAPIA website, which contains a searchable database, allowing potential customers to contact members directly.

TENDER NOTIFICATION SERVICE –

Members are kept up to date with the latest tender releases on a daily basis, saving them potentially thousands of dollars annually.

ACCESS TO REGULATORY AUTHORITIES –

SAPIA works closely with sports and recreation, as well as construction bodies. These authorities actively support SAPIA and recommend SAPIA members for sports and recreation projects.

DISCOUNTED HIA MEMBERSHIP –

SAPIA is a national corporate member of the Housing Industry Association, and SAPIA members receive a substantial discount on HIA membership.

STANDARDS AND CODES OF PRACTICE –

SAPIA keeps its members informed of current standards and has as one of its aims the improving of sports and recreation construction standards nationally. Our committees contribute to the publishing of Codes of Practice and technical standards.

SAPIA NATIONAL CONFERENCE –

Held annually at a different location during winter, the conference provides an opportunity for delegates to meet new and existing members, socialise and discuss developments within the industry. Information sessions are held and the annual dinner is well supported by members and their guests. The AGM is held in conjunction with the annual Conference, and members are invited to attend and participate.

INDUSTRY AWARDS –

Our annual competition is open to all members, providing an opportunity to celebrate and reward the best construction projects and innovative ideas of the past year. The Awards presentation takes place during our annual dinner held after the national conference.

MEDIATION –

SAPIA can offer impartial dispute resolution for issues that may arise with customers of builder members. The technical expertise of industry specialists may assist in resolving issues to the mutual satisfaction of members and their customers, and prevent costly legal action.

NEWSLETTER –

Through its regular newsletters, SAPIA provides its members with news updates on everything from government policy to job vacancies. All members are encouraged to contribute items for inclusion.

NETWORKING OPPORTUNITIES –

Manufacturers and suppliers are afforded exposure of their product to builder members, who are encouraged to buy from Association members wherever possible.
