

Grant Humphreys is a director of sports testing institutes AcoustoScan and PlayTest.

AcoustoScan is a NATA Test Laboratory for most major sporting bodies, including FIFA, WR (World Rugby), FIH (Hockey), AFL/CA, FIBA (Basketball) and ITF (Tennis). This year AcoustoScan has achieved accreditation for FIFA Natural Turf, Futsal, Lighting and World Bowls. Grant participates in a number of Australian Standards committees including CS005 (Playgrounds), CS101 (Sport) and CS132 (Trampolines). He has had years of experience in the testing and performance of synthetic sports surfaces and playgrounds.

Grant will explain the new FIFA test Method, with more Quality Programs coming for Soccer, Football Turf, Natural Playing Surfaces, Futsal Surfaces, Footballs, Football Goals, Floodlighting, Technologies. As well as provide an update on Australian Standards committees CS101 and CS005 which are discussing, among other things, gym flooring and giant slides.
